

April 9

Dear Mary,

Things are beginning to roll. We are forming "Black Power Committee."

First project is boycott of I.G. Inspection. Its the day when classes are suspended for the men in R.O.T.C and they must assemble on the field for inspection by the great white father who comes in from Fort Monroe. Enthusiasm is building up mainly among the freshmen. The boycott is to take place Thursday (13th).

Fisk is really being rocked. Stokely is coming up tight. I hope white power does not tighten up on him.

Do you have any materials available related to the black man and the war? Can you send?

Peace, Gabre
