

As Asians we have held our tongues through many crimes, big and small, which have been committed against us. Some of us simply consider ourselves Americans first, Chinese, Japanese, Korean, Philipino second. Yet America's attitude toward Asians as demonstrated by a long racist history have made some of us admit to other feelings. We are tired of hearing the myth, the downright lie that Asians view their lives as something less than other people. A lie which justifies and perpetuates the continuous slaughter of Asian people.

ASIAN LIVES ARE CHEAP....so MY LAI.

ASIAN LIVES ARE CHEAP....so they can rape and prostitute Asian women.

ASIAN LIVES ARE CHEAP....so they can napalm Asian children.

ASIAN LIVES ARE CHEAP....HOW VALUABLE IS YOURS?

There are many Asians in America who've been against the war, who've remained isolated or who've remained passive. But there those who've been speaking out, who've begun to move - to move together. Silence and passivity by Asians in these critical times, condone the American murder of Asian people.
