J-Town

Yani!

It was good to hear your voice and be reassured that you are well. Vic said something about cancer, scared the hell out of me.

Say hi to Eddie when you see him for me. Give my regards to all the Bros & Sisters in the Big Apple.

Here is the material on weed & seed that I promised, so what else is new? We knew they were up to something and now we know the contours. But, for me, I'm also a student of George Jackson and I know we in the communities of color live in a fascist state, no matter what contemporary Buddhists think or say. Please let me know at any new info on it, development, as I will do the same for you. It is supposed to be in place in a few communities in L.A., which I wasn't aware of. Highland park and San Fernando have been mentioned.

There is some activity around Malcolm and Huey/ Panthers developing here and I'll be trying to get this stuff out. Possibly, we may try to get a coalition together.

over 11

the gal that was wanting your number
is a staff person for KPFK and she
is working on a job program on
Malcolm. That's why she wanted to contact
you.

Would appreciate the participation on Malcolm
and more info on that buddhead brother.
Also the staff on the future job of our
chicken bro.

also would appreciate your giving my name
& number to the NAPO speaker person. I have
some critical observations of their practice
here. i.e. Just prior to the spring visits, I
participated in a program of theirs.
Jerry Yu, a Korean representative from
Korean-American alliance and also a
past member of L.R.S. was the other.
It almost felt like a set up, neither
Jerry nor NAPO offered a clear
analysis and therefore a basis of any,
except on some fainter level, couldn't be
prevented. Needless to say I'm glad a way
there to counter balance the guy with some
working class and Rev. Nat. perspective.

Been trying to work with some young
left wing Koreans - YKA, but their main

who or what his staff is doing and some people will think they are doing a good job. I'm glad at heart I don't dwell at that level, so I can keep my eyes clear.

A Question! Have you made a comparison of the 3 letters of apology yet? I've made a comparison between my dad's and mine. My father's is an insult, there's no seal of the president evident anywhere and he signs it, George Bush with no identification.

Fuck George Bush! he had I'm reading my apology back in an open letter form. I'll send you a copy.

Locally WCLL appears to be flourishing except some local activity by Key Uchi-tes and for Orange County Recital. I have several problems with their organizational methods, real elitist to me.

Hope to see you soon or please write.

Bill:

Howzit? was good to see ya this past summer. wanted to come by and visit before y'all went home, missed. Got a scare too, talked to Vic and he said y'all might have cancer, phew!

so, i called and was reassured she was OK, isn't she?

I have some material on the new govt's counter insurgency operation ^(weed + seed) in the cities, so i wanted to share it with you folks.

They've made a big thing about this white boy who was head of KKK, refusing/quitting, what is your thoughts?

Personally, it seems like we're killing the white 'man' all again. I keep thinking of the people who've been given a bad time by the officer and how come these assholes haven't been weeded (ha ha) out in three years. Besides, i wasn't born yesterday, if a person is a good bear-uccat, he'll know who to butter up, no matter over

work & concern appears to centered on the repression at home and emigration, but, they've been the only ones to give me fairly clear class and historical analysis of Korean attitudes regarding Blacks and how things shape up over here.

Was going to write and ask for help in locating Hwada. He had taken his family back to the Nation, to the Capital as a matter of fact, Atlanta, without letting any of us know when or giving us an address. But, he has contacted a brother who let me know and he is doing, got settled, & he says that Atlanta is a "very backward" place.

Considering that this is a colony of the old type and Atlanta is where a huge amount of imperialism capital is going in, it shouldn't/doesn't surprise me. I've always shared with Hwada that Chairman Mao is more relevant than most folks think. I'm sure there are parts of the country side (the Kushi?) that are 'working with ya'.

I think that's it for now! Take care of yourself, you are in our prayers daily. Kolkons Koon
Go Bro / Mr

work & concern appears to centered on the
 rejection of home and traditional, but
 they've been the only way to give me
 found these class and historical aspects
 of Korean identity regarding Blacks and
 how things have up over time.

Was going to write and ask for help in
 locating history, the text taken was
 fairly basic to the Nation, to the capital
 in a matter of fact, Atlanta, without
 letting any of us know when or where
 we are actually. But the text connected
 a person who let me know and he is
 being put together of the rest that
 Atlanta is a "very backward" place.

Considering that this is a copy of the old
 type and Atlanta is where a huge amount
 of investment capital is going in, it
 shouldn't surprise me. I'm always
 shared with the idea that change or the
 it more than that, not that I think.
 I'm sure there are parts of the country
 like (the South) that are "working well".
 I think that after you! Take care of you-
 you are in our progress daily. Welcome here
 to the
