STOP THE ESCALATION.

STOP THE WAR NOW.

THE WORLD now faces a deadly new peril as the Nixon administration presses ahead with its drive for military victory in *all* of Southeast Asia. This means a heavy new toll in blood and even greater risk of ultimate nuclear combat.

Only a broad and massive mobilization of the American people can keep President Nixon from further desperate escalations.

With the widespread rebellion of GIs in South Vietnam, with more and more American

workers rejecting the idea that they should sacrifice their real wages for military and industrial interests in Southeast Asia, the opportunity exists to bring these constituencies into the antiwar movement in greater numbers than ever before. Massive mobilizations on the scale of October 15 and November 15, 1969 are possible.

The National Peace Action Coalition (NPAC) calendar of antiwar actions this spring must be translated into days of vital, unprecedented, massive, non-violent opposition to the war. To do this, we must reach people and

that takes money. Without our permission, 15 billion dollars a year is spent to maim and kill.

NPAC's entire budget for the spring actions is a tiny fraction of that: \$100,000. We need money to purchase one-minute TV spots, 300,000 buttons and literally tons of literature.

By the time you read this, the intervention in Cambodia and Laos may have reached disastrous new proportions. We can't afford not to make the most generous contribution possible. Please contribute what you can.
