Dear Yuri & Bill:

Since returning from the "inquisition" I have been preoccupied writing letters to people imploring them to send their letters of outrage to Sam Hall just as I wrote you. I've fallen so behind in my school work I've resorted to sending copies of ~~part of a~~ letter I wrote to a friend. Please forgive me for doing same with you. Since I lack the talent for ~~sapping~~ off statements of consequence as some people do with such facility I really labored over the letter to Sam Hall. I must have put a hundred hours in it and still ~~hadn't~~ ~~typostall~~ ~~cover~~ it just as this note has. This letter which serves as an addendum is to give you an idea what went on at the hearing. The copy of the letter to a friend will tell you now I felt about it all.

Also included Donna Omata's letter which is accurate reportage of the three hearings I understand. I didn't attend the first two. Mineta's innocuous and disappointing ~~##~~ speech sounds like he attended an entirely different hearing.

There's so much wrong in Washington which I was witness to. This whole thing #has gone beyond the R/R issue. As I said in the letter no nikkei can take this lying down whether he support redres or not. I hope this serves as a rallying point and unites all the factions of the community.

Please forgive this mess. I have yet to type a paragraph without typos. Must've suffered a minor stroke in the womb.

Hokubei working diligently on a series of artillies around the sudden change of tenor in hearings. I asked that they make the first one a socko. Like Maggie Keuhn's battle cry for Grey Panthers, "Off your asses!", the nikkei really need an ass kicker right now.

Please write me developments there.

Love to you both,

K. Kuy
