Miss Lynne Iijima
601 West 110th Street (4P)
New York, New York 10025

Dear Miss Iijima:

To answer your inquiry of May 20, generally the information you require would be found in the U. S. Census - and other bibliography in the library would be helpful. Your letter did not mention whether it was a sociological or a historical research or the particular period in which you are interested.

Our sociological data is now in the state of analysis and interpretation. It will still be several years before this material will become available in published form.

If we can be of any further help, we shall be happy to reply to your request.

Cordially,

A handwritten signature in blue ink that reads "Joe Grant Masaoka".
