

Asian Americans for Action

NEW YORK CITY, NEW YORK

Dear Friend:

We are a group of Asians who are vitally concerned about the ominous direction our country is taking. As we witness the violent repression of our Black citizens, we realize that no racial minority in America can afford to be complacent. Indeed, under Title II of the McCarran Internal Security Act of 1950, concentration camps are already a reality. To the Japanese-American members of our group, they are all too grimly reminiscent of the "relocation" centers of World War II.

As you will note from our Statement of Purpose, concerned Asians have therefore united to establish a political voice for the Asian community as well as a means for group action.

Since it is a newly-formed organization comprised predominantly of young people, we are urgently in need of funds to launch the kinds of projects that are relevant to effect critically-needed changes in our society.

Your financial help will be greatly appreciated. Please use the form below. Thank you for your interest and concern.

Yours for a better world,

ASIAN-AMERICANS FOR ACTION
